## What we do and why we do it

KPMG Ignition Tax brings process and technology transformation, data & analytics, and solution development to KPMG’s tax services. We work with clients to proactively plan for disruption, exploring fresh insights, new business models, and breakthrough solutions.

In Ignition Tax, work is collaborative, creative and innovative. We seek problem-solvers to help us bring the best solutions to our clients.

## Who we hire

Bachelor’s or master’s degree in accounting, tax, actuarial, business, data analytics, economics, finance, information systems, mathematics, operations management, statistics, or a related field.

Coursework or other experience working with relational databases, supporting large data sets, and providing advanced analytics to business challenges preferred.

Basic knowledge of one or more technologies, such as Excel, VBA, Power Query/Power Pivot, Alteryx, Tableau, Qlik, Power BI, R, Python, SQL Server, SAP, Oracle.

Some or all of the services described herein may not be permissible for KPMG audit clients and their affiliates or related entities.

The information contained herein is of a general nature and is not intended to address the circumstances of any particular individual or entity. Although we endeavor to provide accurate and timely information, there can be no guarantee that such information is accurate as of the date it is received or that it will continue to be accurate in the future. No one should act upon such information without appropriate professional advice after a thorough examination of the particular situation.
